General Chemistry Adjunct

Duties & Responsibilities:
Helena College University of Montana, a comprehensive two-year College focused on student success, seeks qualified applicants to adjunct in our Chemistry Department. Specifically to teach General Chemistry Lecture and Lab, CHMY 121 & 122.

This course is designed to provide students with a working knowledge of the basic principles of chemistry and the physical world at a microscopic scale. Topics include the atomic model of matter, energy, chemical bonds and reactions, the states of matter, acids and bases, and an introduction to organic chemistry. The course integrates lecture, homework assignments and laboratory exercises to provide students practical examples of applications of course material to “real world” situations. The lab component is designed to reinforce the material covered in CHMY121 by providing students with a practical hands-on opportunity to execute and to observe supplemental exercises in a lab setting.

Provide instruction and monitor teaching/learning effectiveness in courses assigned by the Division Chair and/or Associate Dean for Academic Affairs and in which the instructor has appropriate qualifications. Use up-to-date discipline and pedagogical skills to ensure active participation and learning by students.
