SIRENS MELODY

Uniquely Yours

by: Chantelle Mostad
SIRENS MELODY

- Client: Richard Knap
- Owner of Sirens Melody
  - Music production corporation with a focus on soundtracks for their parent company Universal Music Group
  - Oceanfront property in Santa Monica, California
The building is glass and steel built in 2013, similar to other on the block.

- Square Footage: 14,000 sq ft

- Top floor of a new facility with panoramic views. Located in an oceanfront property in Sana Monica, CA. It has an area that has access to the main road and is across from a city park.
SIRENS MELODY

- Concept: Design Across Sound Waves

- Concept Statement: This concept will be expressed through architectural that focus on the heart of the corporation the recording room which then will flow out with the use of rectilinear lines with curved ascents. Also with details that are translucent, airy, and texturized. Because we can’t see the music we feel it.
FLOOR PLAN
RECEPTION & RECORDING
Conference Room to have custom built table made to look like conk shell. Highest point on shell to stick through the glass tabletop in center 2”.
LUNCH ROOM

Brightly colored fabrics bring a splash of color to the natural palette.
LUNCH ROOM

Walls designed to give the impression of both waves on the beach and musical symbols.
3D FLOOR PLAN
DUBBING & RECORDING

Hallways to have inlays that represent music symbols.

Flooring is to have musical symbols such as piano keys & music notes.
HALLWAYS

Clearstory windows to imply the movement of waves.
