Total	13			

***Students must earn a C- or better in order to successfully complete a course.**

This program is offered in a fully online format. Students can choose to take courses in other formats if available. All courses recommended and included on this pathway are offered online.

Science course in semester 4 must be 4 credits (with lab) to earn 60 credits without taking extra courses. GEO 101 and ASTR 110 are 4 credit science courses with labs that are offered online. The only thing that will affect this is if a student chooses to take SPNS 102 in semester 4—student could choose a 3-credit science without a lab if SPNS 102 is taken. Can not guarantee that there is a 3 credit science offered online in the spring.
